PERFORMANCE (AS A LOWERED TRIGGER FORCE AND SHORTENED TRIGGER TRAVEL) INDICATES POSSIBLE MALFUNCTION, TAMPERING AND/OR WEAR. SUCH AIRGUNS SHOULD BE INSPECTED, REPLACED OR PROPERLY REPAIRED BY ONLY QUALIFIED UMBAREX USA PERSONNEL. ANY AIRGUN THAT HAS BEEN DROPPED SHOULD BE CHECKED BY QUALIFIED PERSONNEL TO ENSURE THAT ITS FUNCTION HAS NOT BEEN AFFECTED.

WARNING: An argument that is NOT OPERATING PROPERLY MAY BE DANGEROUS. IT SHOULD BE KEPT SAFELY FROM USE BY ANYONE UNTIL RESTORED OR DESTROYED. DO NOT USE UNCOCKED OR UNLOADED. KEEP IT POINTED IN A SAFE DIRECTION. IT IS IMPORTANT TO PERFORM ROUTINE UNLOADING AND REASSEMBLY. THE AIRPistol IS DESIGNED TO FIRE CALIBER .177 LEAD PELLETS ONLY. THE USE OF ANYTHING OTHER THAN .177 CALIBER LEAD PELLETS WILL VOID THE WARRANTY.

Your RWS air pistol is designed to fire caliber .177 lead pellets only. We recommend the use of RWS Pellets because of their superb accuracy and dimensional uniformity. The correct caliber is clearly stamped on the barrel near the breech block or on the breech block. The exposed metal parts (receiver, screw heads, etc.) are treated with RWS blue finish and MUST be wiped clean using a slightly oiled cloth. The exposed metal parts (receiver, screw heads, etc.) are treated with RWS bore cleaner. Wire brushes should not be used. Insert rod from breech end, do not remove barrel seal.

SURFACE: The exposed metal parts (receiver, screw heads, etc.) are treated with RWS blue finish and MUST be wiped clean using a slightly oiled cloth after handling to prevent rust. Use light acid free and resin free oil. RWS bore cleaner. Wire brushes should not be used. Insert rod from breech end, do not remove barrel seal.

BREECH: Inlayed into the breech by using soft felt RWS Cleaning Pellets. Note: Good quality .177 caliber lead pellets can achieve a velocity of 700 feet per second and dimensional accuracy, they do not leave a lead deposit. At intervals during periods of regular use, the bore of the barrel should be cleaned by means of a felt wad or cleaning rod with a wool mop and RWS Bore Cleaner. Wire brushes should not be used. Insert rod from breech end, do not remove barrel seal.

WARNING: OILS THAT CONTAIN ACID OR RESIN CAN DAMAGE THE SEALS AND POSSIBLY THE AIR PISTOL FINISH.

CAUTION: Before cleaning, lubrication, or maintenance, always be sure your air pistol is UNCOCKED and UNLOADED. IF YOU POINT YOUR AIR PISTOL IN A SAFE DIRECTION, IT IS IMPORTANT TO PERFORM ROUTINE INSPECTIONS AND MAINTAIN YOUR AIR PISTOL PROPERLY.

BERE M&R: Warranty & Repair

RWS® LIMITED LIFETIME WARRANTY

ONLY FOR GUNS SOLD IN THE USA

The RWS warranty covers RWS airguns against any defect in workmanship and materials for the life of the airgun. Any RWS airgun covered by this warranty which is found to have a defect in workmanship or materials will be replaced or repaired for the original owner, at the option of RWS, for only the cost of shipping and handling.

Repairs can only be made by our Authorized Service Center. This limited lifetime warranty becomes invalid for any gun which is handled improperly, modified, or disassembled. Should any defect appear, call Umarex USA, Phone (479) 646-4210 for repair or replacement, at the option of the warrantor and to obtain an RA (Return Authorization) Number. Once you have received an RA Number from the RWS service department, package the gun carefully in a solid shipping box, include the original purchase receipt and a check or money order in the amount of $30 to cover the cost of shipping and handling. Write the RA Number boldly on the box and return, prepaid to: Umarex USA, 6007 South 29th Street Fort Smith, Arkansas 72908. The name, address and phone number of the shipper must be included in the package, along with a note explaining the defect found.

Under the warranty, you have our assurance of a lifetime of shooting pleasure with your RWS® airgun.

This warranty does not cover guns used for commercial purposes or by institutions. These guns are covered only by our regular five year policy.

**SAFETY “ON”**

**REAR SIGHT**

**INTENDED FOR USE OVER NORMAL OPTICAL READING GLASSES.**

**READING GLASSES, YOU MUST WEAR SAFETY GLASSES SHOOTING GLASSES TO PROTECT YOUR EYES. IF YOU WEAR BLINDNESS, OR DEAFNESS. IN BODILY INJURY INCLUDING FACE, EYE, AND EAR INJURY, RECOMMENDATIONS IN THIS OWNER’S MANUAL MAY RESULT IN INJURY. READ THE FOLLOWING OPERATING INSTRUCTIONS THOROUGHLY PRIOR TO OPERATING.**

**ACCIDENTS HAPPEN FAST, FATALLY WOUNDING SOMEONE IS A DANGEROUS SITUATION.**

**SHOOTING THE AIR PISTOL AT A SAFE TARGET. AN UNLOADED, UNCOCKED AIR PISTOL WHICH IS “ON SAFE” IS SAFEST. ACCIDENTS HAPPEN FAST, FATALLY WOUNDING SOMEONE IS A DANGEROUS SITUATION.**

**WARNING:** FAILURE TO FOLLOW THE INSTRUCTIONS AND RECOMMENDATIONS IN THIS OWNER’S MANUAL MAY RESULT IN BODILY INJURY INCLUDING FACE, EYE, AND EAR INJURY, BLINDNESS, OR DEAFNESS. IN BODILY INJURY INCLUDING FACE, EYE, AND EAR INJURY, RECOMMENDATIONS IN THIS OWNER’S MANUAL MAY RESULT IN INJURY. READ THE FOLLOWING OPERATING INSTRUCTIONS THOROUGHLY PRIOR TO OPERATING.**

**WARNING:** NEVER ATTEMPT THAT THE AIR PISTOL NO LONGER FIRES A PROJECTILE THAT A PROJECTILE IS NOT LOADED IN THE BARREL, ALWAYS TREAT THE AIR PISTOL AS THOUGH IT IS LOADED AND WITH THE SAME RESPECT YOU WOULD A WEAPON.

**STEP 1. PRIOR TO OPERATION**

**WARNING:** NEVER ATTEMPT THAT THE AIR PISTOL NO LONGER FIRES A PROJECTILE THAT A PROJECTILE IS NOT LOADED IN THE BARREL, ALWAYS TREAT THE AIR PISTOL AS THOUGH IT IS LOADED AND WITH THE SAME RESPECT YOU WOULD A WEAPON.

**STEP 2. COCK**

**WARNING:** CAUTION: ALWAYS POINT THE MUZZLE IN A SAFE DIRECTION. NEVER PLACE YOUR HAND IN FRONT OF THE MUZZLE.

With one hand grasp firmly, avoiding contact with the trigger. Grasp the barrel just behind the sights. Pull the barrel all the way down and under the air pistol until you reach the end of the cocking stroke. You will hear a click indicating that the spring piston has been locked into position (See Fig. 2). Cocking automatically engages the safety. COCKING ALONG "ON SAFE" POSITION.

**STEP 3. LOAD**

Insert the correct caliber lead pellet carefully into the chamber of the breech end which is now exposed (See Fig. 3). Be sure to seat the pellet flush with the breech. Avoid damaging the pellet skirt. INSERTING A PROPER SHELL INTO THE AIR PISTOL.

**STEP 4. CLOSE BARREL / LEVER**

Firmly grasp the barrel behind the front sight, return the barrel to its original closed and latched position. INSERTING A PROPER SHELL INTO THE AIR PISTOL.

**WARNING:** CAUTION: BE CAREFUL TO KEEP FINGERS CLEAR OF COCKING MECHANISM. GRASP THE BARREL FIRMLY AS YOU COCK IT AND CLOSE THE BORE, SNAPPING BACK AND POSSIBLY CAUSING INJURY.

**STEP 5. AIM AT A SAFE TARGET**

**WARNING:** CAUTION: YOUR BACKSTOP SHOULD BE INSPECTED FOR WEAR BEFORE AND AFTER EACH USE. DISCONTINUE USE IF THE BACKSTOP SURFACE SHOWS SIGNS OF FAILURE. ALWAYS PLACE THE BACKSTOP IN A LOCATION THAT WILL BE SAFE FOR THE BACKSTOP FAIl. DISCONTINUE THE USE OF A BACKSTOP IF A PROJECTILE REBOUNDS OR RICOCHETS.

**STEP 6. PUT “OFF SAFE”**

Push the safety lever to the downward position (See Fig. 2). The red dot should be fully visible.

**WARNING:** CAUTION: LIKE ALL MECHANICAL DEVICES, AN AIR PISTOL SAFETY CAN FAIL. EVEN WHEN THE SAFETY IS “ON SAFE”, YOU SHOULD CONTINUE TO HANDLE THE AIR PISTOL SAFELY, NEVER POINT THE AIR PISTOL AT ANYTHING YOU DO NOT INTEND TO SHOOT.

**STEP 7. FIRE**

Make certain that you are aimed at a safe target. Pull the trigger.

**WARNING:** IF A PROJECTILE DOES NOT FIRE AFTER COMPLETING THE OPERATING STEPS, THE AIRGUN MAY BE JAMMED. AN UNFRIED PROJECTILE IN THE BARREL CAN BE A DANGEROUS SITUATION. KEEP THE AIRGUN POINTED IN A SAFE DIRECTION AND REPEAT ALL OPERATION STEPS EXCEPT:

**STEP 3.** IF A PELLET DOES NOT FIRE AFTER COMPLETING THE OPERATING STEPS, THE AIRGUN MAY BE JAMMED. AN UNFRIED PROJECTILE IN THE BARREL CAN BE A DANGEROUS SITUATION. KEEP THE AIRGUN POINTED IN A SAFE DIRECTION AND REPEAT ALL OPERATION STEPS EXCEPT:

1. Cock the airgun and leave the barrel open. The safety will automatically engage in the “ON SAFE” position.

2. Clear barrel by running a cleaning rod through from muzzle and:

3. Repeat operation steps.

**NOTE:** Many factors affect air pistol performance and velocity, including brand of pellet, type of projectile, lubrication, barrel condition, and temperature.

**STEP 8. PUT “ON SAFE”**

1. Cock the airgun and leave the barrel open. The safety will automatically engage in the “ON SAFE” position.

2. Clear barrel by running a cleaning rod through from muzzle and:

3. Repeat operation steps.

**WARNING:** CAUTION: NEVER LOOK INTO THE MUZZLE.

**UNLOAD PELLET**

Fire the pellet at a safe target to unload the airgun. If this is not practical, cock the airgun to open the barrel, and push the pellet from the chamber by running a cleaning rod through the muzzle end. Insert a felt cleaning rod and discharge into a safe target.

**SIGHT ADJUSTMENT**

The RWS Air Pistol is equipped with fiber optic sights. If the air pistol shoots low, turn the screw (D) clockwise (“UP”) (See Fig. 6). If the air pistol shoots high, turn the screw (D) counterclockwise. If the air pistol shoots right turn the screw (E) clockwise. If the air pistol shoots left turn the screw (E) counterclockwise. If the air pistol shoots right turn the screw (E) clockwise. If the air pistol shoots left turn the screw (E) counterclockwise. If the air pistol shoots right turn the screw (E) clockwise. If the air pistol shoots left turn the screw (E) counterclockwise.

**WARNING:** CAUTION: ALWAYS CHECK TO MAKE SURE THE AIR PISTOL IS UNLOADED WHEN GETTING FROM STORAGE OR FROM ANOTHER PERSON.

**STORAGE**

NEVER STORE A LOADED OR COCKED AIRGUN. Unload pellet from the air pistol. Keep air pistol away from children and untrained shooters. Store pellets separately from the air pistol to keep them from untrained shooters. Protect your air pistol from moisture and dirt, clean and wrap it in a smooth, dry cloth, or store the airgun in its original packaging. If you are going to store your airgun for an extended length of time be sure the barrel is protected. This can be accomplished by coating the bore with a good acid-free and resin-free oil or grease. Always use a soft brush and insert the cleaning rod from the breech end on break barrel air pistals. Remove the oil/grease completely before the next use. Always check to be sure the airgun is unloaded when removing from storage or getting it from another person.

**MODIFICATION**

**WARNING:** CAUTION: THE COMPONENTS OF THIS AIRGUN WERE ENGINEERED AND MANUFACTURED TO DELIVER OPTIMUM PERFORMANCE. ANY MODIFICATION OR TAMPERING WITH AN AIRGUN WILL CAUSE A MALFUNCTION. VOID YOUR WARRANTY AND MAY MAKE IT UNSAFE TO USE. ANY CHANGE IN
